Tuesday 28<sup>th</sup> April 2020

Good morning everyone,

One of the major stories to hit the news in recent weeks is that of Captain Tom Moore, the 99 year old veteran who has walked 100 lengths of his garden before his 100<sup>th</sup> birthday. His initial aim was to raise £1000 for charity; and it is fair to say that he has done a little better than that. The latest figure is £29,204,701.

This story has gone viral but there are many other people across the country who are doing something just as special as Captain Tom, and some of those people are part of the Highfields family.

I want to share two stories with you today:

### **Patrick O'Hara (Foundation class)**

Yesterday I received an email from Patrick's mum about the work that he is doing to raise money for charity. He started painting rainbows for his family for donations to the Mid Cheshire Hospitals Charitable Fund. He started out with a goal to raise £50 and now he is at over £400. He has even sent some of his rainbows to family and friends in America. Further information about Patrick's work can be found at <https://www.justgiving.com/fundraising/patrickrainbows>. We at Highfields are so proud of you Patrick. This is amazing work. I would love to have one of your rainbows in my office window if you have time to do me one, a donation has been placed.

### **Mrs Hayes**

This Sunday Mrs Hayes would have been running the Keswick half marathon. Unfortunately as with all large sporting events this has had to be cancelled. However, Mrs Hayes will still be running a half marathon on Sunday, on a cross trainer in her garage. I'm not sure the views will be quite as spectacular as the Keswick landscape but at least if it rains she won't get wet. Mrs Hayes has raised £350 so far for Shelter. For further information please use this link: <https://www.justgiving.com/fundraising/zoe-hayes6>. Good luck Mrs Hayes! I'll be thinking of you on Sunday.

# Mr Dyson's Tuesday Challenge

Today is a mixture of Maths, Geography and general knowledge.

Peter the Pirate has landed on a deserted Island. He wants your help to find the buried treasure. On the map you will see that there is one treasure chest.

Challenge 1: What are the co-ordinates of the treasure chest shown on the map?

Challenge 2: There are 5 other secret treasure chests but to find out where they are you need to answer these questions. For the letter use the first letter of your answer

1. It is the largest planet in our solar system.  
28 divided by 4
2. The surname of the American president who was shot in 1963.  
36 divided by 6
3. King \_\_\_\_\_ was the King of England in 1066 when the Battle of Hastings took place. It is said that he was shot in the eye.  
56 divided by 8.
4. \_\_\_\_\_ Johnson is the current Prime Minister.  
20 divided by 4
5. It is an island just off the east coast of Africa (and also a film!)  
40 divided by 5.

Good luck, Peter the Pirate will be grateful of your help.

Mr Dyson
